SEASONS.

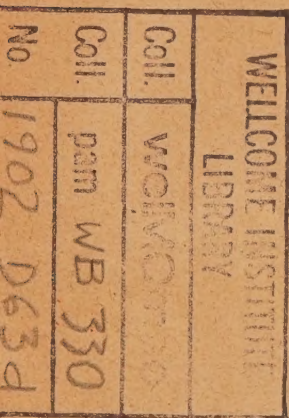

The Sun enters the zodiacal sign, Aries, Spring begins, March 21st, 1h. 17m. p.m.
The Sun enters the zodiacal sign, Cancer, Summer begins, June 22nd, 9h. 15m. a.m.
The Sun enters the zodiacal sign, Libra, Autumn begins, September 23rd, 11h. 55m. p.m.
The Sun enters the zodiacal sign Capricorn, Winter begins, December 22nd, 0h. 37m. p.m.

ECLIPSES.

- 1.—A partial eclipse of the Sun, April 8th, invisible in the United Kingdom.
- 2.—A total eclipse of the Moon, April 22nd, partly visible in the United Kingdom.
- 3.—A partial eclipse of the Sun, May 7th, invisible in the United Kingdom.
- 4.—A total eclipse of the Moon, October 17th, partly visible in the United Kingdom.
- 5.—A partial eclipse of the Sun, October 31st, partly visible in the United Kingdom.

MORNING AND EVENING STARS.

VENUS is an evening star to Feb. 14th, a morning star to Nov. 28th, then an evening star.
MARS is an evening star to March 29th, afterwards morning star.
JUPITER is an evening star to Jan. 15th, a morning star to Aug. 5th, then an evening star.
SATURN is an evening star to Jan. 9th, a morning star to July 17th, then an evening star.
MERCURY may be seen in the morning about March 17th, July 15th and Nov. 4th, and in the evening about Feb. 3rd, May 28th and Sept. 24th.
VENUS at its greatest brilliancy Jan. 9th and March 21st.
The Satellites of Jupiter are visible to Feb. 12th.

TO THE READER.

WE call your attention to this book, the gift of the
Dodds Medicine Company, of London, E.C.

It is not a casual publication, but is issued year by year ; printed in many different languages, specially edited for several countries, and goes into nearly every house in the civilized world.

The information it gives is important as a guide to health and as a means of avoiding a fruitful cause of ill health. It is read by millions of readers, many of whom have had reason to be grateful for its teaching, and the rational advice it offers.

There is a message in the following pages for every single reader of this work. Health and how to keep it ; ill health and how to avoid it ; disease and how to fight it, are all subjects of paramount importance, and of the widest interest to the public.

This book is a plain talk on these subjects, and as such, it gives useful hints, and is a reliable guide to the treatment of all the common diseases which make up the sum total of human misery.

The remedies spoken of are not experiments, but tried and proved specifics, which have brought health and happiness to thousands of unhappy lives. They are approved and endorsed by the testimony of professional, business and working classes all over the world, and men and women in every walk of life sing their praises, and have learned to know and to trust them.

This edition is offered free to the people of Great Britain, in the hope that many will benefit by its advice and information, and that weary sufferers may be guided to the paths of happiness and health, and to that actual prosperity which only perfect health can give.

THE DODDS MEDICINE COMPANY,

LONDON, E.C.

THE ROOT OF ALL DISEASE.

THE Kidneys are the starting-point of all disease. If the Kidneys are acting properly, disease cannot enter or remain in the system.

The function of the Kidneys is to extract and expel all decayed waste matter and poisonous impurities. If they are healthy they do this, and in doing so drive away every form of bodily ailment.

The Kidneys are nature's only protectors against disease. If they are always on the alert and promptly perform their duty, the most malignant disease is powerless.

Like sentinels they stand, guarding the body, instantly assailing and destroying every enemy to good health, that by any means may find an entrance.

The condition of the Kidneys as ascertained by urinal examination, is the deciding point in the passing or rejection of every applicant for an insurance policy. It is an absolute rule among Life Insurance Companies, and Friendly Societies with tables based on the experience of thousands of cases to guide them, that "IF THE KIDNEYS ARE NOT SOUND, THE SUBJECT'S LIFE IS IN DANGER. DON'T INSURE."

Every experienced doctor, in making a diagnosis of any case whatever, is invariably careful to first ascertain how the Kidneys are, for he knows that without the help of the Kidneys he is absolutely powerless to expel sickness of any kind from the human body.

The importance of the Kidneys to the well-being of the human body simply cannot be over-estimated. They are without exception the most important and necessary organs of the body. With them rest health, happiness, life itself. Kidney diseases

carry off more people than all the other causes combined. No diseases are more common in every walk of life. Nor are any diseases more gradual and deceitful in their approach. The slightest symptom of Kidney Trouble is a matter for grave anxiety. Therefore be sure.

Are your Kidneys sound? If not, your life is in danger. No Insurance Company would insure you if they knew it. No examining doctor, if he did his duty, could pass you. The man whose Kidneys are not in perfect working order is liable to be attacked by any disease and cannot live his allotted span. The gates are open. The watchmen are asleep. Any and every malady is simply invited to enter and destroy.

Never till the introduction of Dodd's Kidney Pills has the natural method of fighting disease been applied.

Recognizing the Kidneys as the root of all disease, Dodd's Kidney Pills have revolutionized the history of medicine. Acting on the Kidneys with positive and immediate directness, Dodd's Kidney Pills give those organs a condition of healthy action which absolutely defies disease.

By the use of Dodd's Kidney Pills the Kidneys are restored to their natural power of collecting up and casting out all the poisons and germs which infest the system, and which are the cause of every illness to which man is heir. This is the explanation of the wonderful success of Dodd's Kidney Pills.

That the Kidney Treatment as exemplified by Dodd's Kidney Pills is the one rational way to reach at the root of all physical disorder and affliction, has had emphatic confirmation in the thousands of grateful testimonials from England, Scotland, Ireland, Canada, Australia, New Zealand, and the United States, some of which have been and are being published in the newspapers, and a few of which are printed in this book.

RULES FOR SELF-EXAMINATION.

ASK yourself the following questions. Answer truthfully, for your future health and happiness, perhaps your life, depend on your honesty to yourself in this matter. Many have found to their dismay that they have had Kidney Disease only when asked just such questions in an examination for life insurance. If you have to answer "Yes" to any of these questions it denotes danger. If your answer to two or more of them be "Yes," it denotes greater danger, and you should act promptly.

- Have you backache?
- Do you feel drowsy?
- Do your limbs feel heavy?
- Have you scanty flow of urine?
- Do you suffer from unusual thirst?
- Does your water appear thick or milky?
- Have you frequent severe headaches?
- Have you been losing weight and strength rapidly?
- Do you ever have cramp in the muscles or limbs?
- Have you uneasiness or pains occasionally in the loins?
- Do you make water too frequently either during the day or night?
- Have you failing or indistinct vision, with flashes of light or floating specks?
- Has your perspiration, or urine after exposure, a bad and disagreeable odour?
- Have you deposits of sand, gravel, brick-dust, or white mucous in the urine?
- Have you dark-red or bloody-looking urine, which scalds you in passing, or do you notice shreds in it?
- Have you dark circles around the eyes, puffiness under the eyes, or a bloated appearance of the face in the morning?

TEST: Fill a bottle with urine. Let it stand a day. If a sediment is formed the Kidneys are diseased.

There is danger in delay. If you have any of these symptoms, your Kidneys are more or less affected. Don't lose a moment. There is only one remedy which has never failed. Dodd's Kidney Pills will cure any case of Kidney Disease, no matter of how long standing.

CAUTION.—Beware of imitations. Accept only the genuine. D-O-D-D-'S. See picture of boxes on back cover.

- Are you irritable?
- Is your sleep broken?
- Have you a dizzy feeling?
- Have you shortness of breath?
- Are you greatly depressed in spirit?
- Do you suffer from nausea after eating?
- Do you find it difficult to remember things?
- Have you tender spots in the back, over the spine?
- Do you get tired and nervous after ordinary exertion?
- Do you start in your sleep, have bad dreams or nightmare?
- Has your skin a dry and harsh feeling, or does it itch and burn at night?
- Have you a bad or bitter taste in the mouth, especially in the morning?
- Have you attacks of rheumatism, stiffness of the joints, neuralgia, lumbago or sciatica?
- Have you pressure or sharp pain in the top of the head, with difficulty in collecting your thoughts?
- Do you have a tired feeling in the region of the kidneys, with a dragging, heavy feeling across the loins?

Let it stand a day. If a sediment is

No Alcohol.

All liquid preparations contain a certain amount of alcohol. This irritates the kidneys, hurries on the heart's action, and besides, is very objectionable to a great many people who do not knowingly allow themselves to use alcohol in any form. Dodd's Kidney Pills being in pill form do not contain alcohol. Though strong and powerful, they are entirely harmless to the system. They are pleasant to take and may be easily carried in the pocket.

Catarrh

Without a doubt is a blood disease, caused by Kidney poison in the system. Dodd's Kidney Pills cure the Kidneys, and the Kidneys cure Catarrh—for Catarrh is impossible if the Kidneys are doing their duty.

"No One need Despair."

Wm. Syder, Stisted, near Braintree, Essex.

Writing on February 15th, 1901, he says:—

For twelve years I suffered from a dreadful pain in my loins and right side, which extended to my hip joints. I also had a very severe pain in the back, so bad that when I stooped down I could scarcely get up again. The pain in my right side became so severe that oft-times I had to get out of bed at night and walk about the house. My urinary system was badly affected, my stomach was very weak, and I gradually lost weight and strength; I was troubled very much with shortness of breath, and always felt drowsy and tired.

I had been treated by doctors, but got worse instead of better, and in May, 1900, I went into a London hospital, and was examined by several doctors, who told me my trouble was caused by a stone in my right kidney. I gradually got worse, and became weaker after every attack, until at last I had given up all hope of ever getting relief.

In November I heard of Dodd's Kidney Pills. I was almost mad with pain when I commenced taking them. The effect was marvellous. Before I had taken half of the first box the pain left me, and I have never had it since. I have now taken nine boxes in all, and am better than I have ever been in my life. I am a great deal stronger, and I feel like a different man. When Dodd's Kidney Pills have cured such a case as mine *no one need despair*.

I might also mention that I was troubled very much with Rheumatism in the muscle of my right arm.

(Signed) WILLIAM SYDER.

DODD'S KIDNEY PILLS.

THE Kidneys are Nature's blood Purifiers. This is their only function. Through them, all the blood in the body passes every three minutes. If they are acting properly, they will remove all impurities from the blood, and therefore, disease cannot enter or remain in the system. **HEALTHY KIDNEYS MAKE DISEASE IMPOSSIBLE.**

To the mind and heart of the discoverer of Dodd's Kidney Pills, this conviction was the key-note of his life's work. He was sure that if he could succeed in producing a compound that would make and keep the Kidneys well, he would have discovered a perfect medicine; one that accepted Nature's own method, as the only wise one.

Two things he must guard against. First, this compound must be of such a character as not in any way to disturb the harmony of the other organs of the body, while acting directly and curatively on the Kidneys. Second, it must contain nothing that would in itself irritate or injure the Kidneys.

He therefore determined first, on a purely vegetable compound, containing no mercury nor minerals of any kind, and second, that this remedy be put up in solid and not in liquid form.

All vegetable remedies in liquid form, must contain Alcohol as a preservative, and Alcohol he knew to be an irritant, especially injurious to the Kidneys.

He gave the problem much thought. He experimented for years. At last, after much correction and alteration, he produced the compound which now bears his name—Dodd's Kidney Pills.

For years, before daring to put his new remedy before the profession or

the public, he tried its efficacy in his private practice. The results surprised and delighted him. He sought out the most chronic and acute cases of disease of every kind and description, and applied his compound. While satisfied that the curative properties of the medicine were beyond question, the results actually startled him.

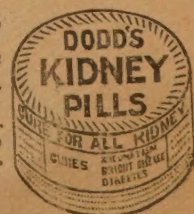

Diseases which had always been considered incurable, yielded to it. Bright's Disease, an invariably fatal malady, was completely and permanently cured. Diabetes, Dropsy, Rheumatism, Gout, Back-Ache, Lumbago, Sciatica, Neuralgia, Heart Trouble, Catarrh, Boils, Pimples, Eruptions of the Skin, all disappeared before it, and in doing so, proved the truth of the theory, and the medicinal value and efficacy of the compound, which he had struggled to bring to perfection.

He had won. His life's work was accomplished. He gave his name to the remedy, and no greater monument has ever been erected to perpetuate the name and fame of any world's hero or benefactor.

No other remedy had ever even claimed to cure Bright's Disease, Diabetes or Dropsy. Dodd's Kidney Pills are continually curing Bright's Disease, Diabetes, or Dropsy. They are equally infallible in Rheumatism, Catarrh, or Heart Trouble.

The Kidneys are Nature's blood strainers, and by no other organ can the blood be cleansed. "Healthy Kidneys" mean pure blood and good health.

The wonderful success of Dodd's Kidney Pills is due to this—they make and keep the Kidneys well, thus expelling all disease and fortifying the system against further attacks

Promises Fulfilled.

Dodd's Kidney Pills have proved a blessing in every country, city village, and hamlet, that has been gladdened by their presence. The remarkable success of Dodd's Kidney Pills in the Cure of Chronic Diseases of long standing has been such as to practically constitute a new era in the cure of disease, and to gain for them a world-wide reputation.

Once introduced they increase in popular favor, because they are an honest remedy, and their performances are never less than their promises.

To the Reader.

If you have any doubt as to whether Dodd's Kidney Pills will cure you, write us describing your symptoms, and by return we will candidly tell you if our Remedy has been effective in other cases similar to your own, or not.

Bright's Disease Cured.

Mrs. E. Fretwell, 12, Ellerby Lane, Leeds.

Bright's Disease, as is well-known, has, prior to the discovery of Dodd's Kidney Pills, been considered incurable. That it is curable is proved conclusively by the experience of Mrs. Fretwell, who writes:—

Two months after the birth of my last child, I became very puffy under my eyes and round my neck, and my limbs swelled to an alarming degree. I consulted our doctor, who said I was suffering from inflammation of the kidneys, and that I must remain in bed for a month. As I made no improvement I was advised by the doctor to consult a physician, and one attended me from the Leeds Infirmary. He declared my trouble to be Bright's Disease, and recommended my going to the Leeds Infirmary. I was an in-patient there for thirteen weeks, but came out feeling no better. Our doctor then told me I could not expect to get better as no medicine would cure me. After leaving the Infirmary my limbs and body began to swell as much as ever, and in a week my weight increased from eight to nine and a half stone. My husband hearing of Dodd's Kidney Pills, asked me to give them a trial, and I cannot be too thankful that I did so, as they have entirely cured me. After taking eleven boxes in all, I am able to get about and do my work, and am as well as ever I was.

No words could exaggerate my condition before using Dodd's Kidney Pills, and my husband and myself think that my experience with them ought to be known world-wide. We cannot speak too highly of them.

(Signed) (Mrs.) E. FRETWELL.

BRIGHT'S DISEASE.

THIS is the final stage of Kidney disease. It is really consumption of the Kidneys. In all Kidney diseases some part of the system is attacked by the escaping poison. In Bright's Disease this poison turns on the Kidneys themselves, and they are consumed. The albumen—the life-sustaining property of the blood—is allowed to escape in the urine, and the whole body wastes as a consequence.

SYMPTOMS.

The most frequent and noticeable of the early symptoms are :

Loss of flesh, dry, hot skin, fits of the "blues," shortness of breath, changeable appetite, loss of sexual power, sleeplessness, continual nervousness, soreness of the bowels, puffiness under the eyes, headache and neuralgia, pains in the region of the heart, chills and fever, especially at night, constipation, with occasional diarrhoea, swelling of the legs and abdomen, cramps in the muscles of the legs, failure of strength, with paleness of the face, great decrease in quantity of urine passed, albumen in the urine, shown by chemical tests, dropsy, beginning at the ankles and extending upwards, pains or burning sensation in the loins or in the small of the back, the inability to concentrate the mind on its work, dark coloured urine, that scalds while being voided and which shows a deposit or is covered with a greasy scum after it has stood for a time.

You will not have all of these symptoms at one time. One should be enough to convince you that your Kidneys are in the way that leads to Bright's Disease.

Bright's Disease *creeps* on its victim. Steathily, quietly, painlessly, it works its deadly way. Gradually,

without any violent symptoms, it continues till at last, having got its victim entirely in its power, this monster stands unmasked, and demands the surrender of the priceless possession, Life. Don't yield. There is help at hand. Dodd's Kidney Pills will cure Bright's Disease.

The doctors say Bright's Disease is incurable. At least, they used to say so, but now that Dodd's Kidney Pills have positively and permanently cured so many of the worst cases, they are changing their minds. The cure of many hopeless patients after taking the remedy has surprised not only the relatives of the afflicted but their doctors, who have given them up as incurable.

Before Dodd's Kidney Pills were discovered, however, Bright's Disease was incurable. Dodd's Kidney Pills are the only remedy known to medical science that has ever cured Bright's Disease.

To-day there is no reason why anyone should regard the announcement that he has Bright's Disease as the sentence of death.

No one need die of Bright's Disease when—the fact is well established—Dodd's Kidney Pills will cure it.

Read the testimonials of a few who having tried and proved the remedy are willing to have their testimony published.

The names and addresses accompany every testimonial published. They are genuine in every particular, and they most conclusively prove that Dodd's Kidney Pills cure Bright's Disease.

The doctors told Mr. R. Hulton, 71 Darwen Street, Bolton, that he was incurable. He is alive and well to-day and says Dodd's Kidney Pills saved his life.

The Best Proof.

No amount of argument is as convincing as actual experience. For this reason the host of testimonials to the virtue of Dodd's Kidney Pills is a monument of evidence that they will do all that is claimed for them. But the best proof of all is a trial of the medicine itself. Dodd's Kidney Pills will do more than all the talking in the world. Give them a chance, and they will prove their marvellous power by making you well.

Bed-Wetting.

This is the direct result of Kidney derangement and disappears at once when Dodd's Kidney Pills are used. If your child urinates too frequently, or is troubled with bed-wetting, give it from one-third to one-half a pill three times a day (according to age), when the trouble will soon disappear.

Dread Diabetes.

W. Thorne, 4, Cromwell Road, Plymouth.
Writing on July 30th, 1901. Mr. Thorne says:—

Being grateful on account of the great benefit I have received from Dodd's Kidney Pills, I feel it my duty to testify to their value, in order that other poor sufferers from that terrible disease, Diabetes, may benefit thereby. I have been troubled with this complaint for some time, and after deriving no benefit from ordinary medical treatment, I decided to give Dodd's Kidney Pills a trial. When I commenced taking the Pills, I was scarcely able to walk. I was also troubled with a dreadful thirst, and was passing large quantities of urine day and night. I am pleased to say that I can now walk miles without feeling any worse for it, and my thirst has completely left me. I am gaining in strength and weight every day, and I am feeling better in every way. This is a great contrast to what I was six weeks ago, and it does not seem possible that any medicine could make such a change in so short a time.

I might also mention that before taking Dodd's Kidney Pills my gums were very much swollen, constantly bleeding, and very painful, but that trouble has also disappeared.

I have every confidence in recommending Dodd's Kidney Pills and tender my heartfelt thanks for the great benefit I have received from their use. You are at liberty to publish this letter, if it will be the means of inducing other sufferers to give Dodd's Kidney Pills a trial.

(Signed) WALTER THORNE.

DIABETES AND DROPSY.

GREAT thirst, voracious appetite, dry harsh skin, clammy tongue, a sense of weight or acute pain in the loins, failing sight, pale colored urine, loss of sexual power, bleeding of the gums, swelling of the feet and ankles, in the advanced stages, emaciation and weakness, numb feeling in the thighs, nervousness and irritability; cold, damp skin, boils and skin eruptions, looseness and decay of the teeth, quickened pulse, increase in quantity of urine.

If you find yourself with any of these symptoms don't delay. They mean Diabetes. Don't waste any time. You won't have all of them at once, *but don't wait for all of them.* Get cured.

Dodd's Kidney Pills will cure Diabetes. Thousands have been literally snatched from the grave by Dodd's Kidney Pills.

Doctors pronounce Diabetes "incurable," but it is not incurable. Dodd's Kidney pills have cured even doctors themselves who were dying with Diabetes.

Diabetes is a Kidney Disease pure and simple, a local disease of the Kidneys themselves. Dodd's Kidney Pills were made expressly to cure Diabetes, and they will cure it.

If you think you have Diabetes don't lose time by experimenting. Begin at once to use the certain cure, Dodd's Kidney Pills, the medicine that has been proved. The proof is in the testimony of thousands, and a few of the letters are given in this book.

DROPSY.

In Dropsy, there is puffiness under the eyes, bloating of the ankles,

limbs, and body, and a smothered feeling when excited or over-exerted.

The water in the blood, which it is the duty of the Kidneys to separate and send on to the bladder is, by bad Kidney action, allowed to accumulate in various parts. The water, instead of being separated and discharged from the body, flows back with the blood into the arteries and veins, causing unusual pressure upon the walls of the blood vessels, distending them and allowing the particles of water to ooze through. This condition is impossible if the Kidneys will but do their duty. Give them a chance. Dodd's Kidney Pills are the best Kidney medicine known to Medical Science to-day. Dodd's Kidney Pills will cure Dropsy at any stage.

Of course the earlier disease is treated the easier it is to cure. It is always better to check a disease in the first stages, but even the most advanced cases of Dropsy yield to a patient treatment of Dodd's Kidney Pills.

212, Rosliston Road, Stapenhill,

Burton-on-Trent, May 11th, 1901.

Dear Sirs,—In November last my son, who is between six and seven years of age, had a bad attack of Dropsy; he was so much swollen as to be quite helpless, and we had to carry him about. We called in the doctor, who told us it was the lad's Kidneys that caused the trouble, but as he did not improve, I made up my mind to try what Dodd's Kidney Pills would do for him. Before he had finished the first box, the swelling had disappeared, and after taking the second box, he was quite well again, and able to return to school. As I had already lost one child from Dropsy, I am thankful I heard of Dodd's Kidney Pills in time, as I feel sure they saved my boy's life.—Yours truly,

(Signed)

T. CORDEN.

World Famous.

Great Britain, Canada, Australia, New foundland, New Zealand and the United States have sent thousands of testimonials for Dodd's Kidney Pills. When a medicine becomes famous on three continents as Dodd's Kidney Pills have done, surely it is clear that they must contain a wonderful power to heal and cure. Dodd's Kidney Pills do contain that power. Those who have used Dodd's Kidney Pills are those who best know it.

Gravel and Stone in Bladder.

These results of diseased kidneys always yield to the influence of Dodd's Kidney Pills. If further proof of this were needed, it is to be found in the statements of the many who have tried and proved Dodd's Kidney Pills in such cases. They say as positively as words can that Dodd's Kidney Pills have cured the most serious cases of Gravel and Stone in the Bladder.

Nearly Blind.

W. Reynolds. White Swan Inn, Ramsey, Hunts.

One of the many symptoms of kidney derangement is trouble with the eyes. Many people suffer excruciating pains through their eyes, others have weak sight, or failing vision, and never suspect that their kidneys are the cause. It is well known, however, among Specialists for the eyes that kidney disease is accompanied by a serious change in the nervous tissue in the eye itself. If you are suffering from the eyes, see that the kidneys are healthy. Mr. Reynolds, whose case is one of hundreds we have had reported to us, was nearly blind; the kidneys in his case were the actual seat of the trouble. Dodd's Kidney Pills cured his Kidneys, and the blindness, as well as all the other symptoms, entirely disappeared. Writing on May 20th, 1901, he says:—

Having been for some time a great sufferer from Kidney Disease, and having tried several medicines without any effect, one day one of your circulars was left at my house, and after having carefully read it, I felt induced to try Dodd's Kidney Pills, which, I am happy to say, were the means of doing me good.

I suffered from dizziness and gnawing pains in my back and right side not being able to stand upright, or to turn over in bed. My breath was very short and I was irritable and had deposits of what looked like brickdust in my urine.

I was also troubled with blindness, but I am happy to say I am quite well again, and feel confident that it was Dodd's Kidney Pills that cured me; and if I had not taken them I might to-day be a helpless invalid. I am now able to perform my duties, and never felt better in my life before.

(Signed) W. REYNOLDS.

THE LIVING PROOF.

READER, you are not asked to believe what is said in this book without proof. Thousands of witnesses can be called to testify to the power of Dodd's Kidney Pills. We have only room for a very few of them here, but ask your neighbours, your friends, any one who has used them. They will tell you. Read the testimony of the cured. They have no selfish interest in saying what they do about Dodd's Kidney Pills. Their only motive is the desire to help you, and as many other sufferers as will read their grateful testimony.

Gravel and Bladder Trouble.

MR. JAS. JONES, of 49, Chester-rd., Tuebrook, Liverpool, writes;—For years I suffered from what I think should be called a complication of Kidney Disease, Bladder and Urinary trouble and Gravel. Mine was a very bad case indeed, as I had neglected it so long and I suffered most agonizing torture.

I became so weak that I could scarcely stand, and suffered a great deal with my urinary system, being compelled to get up many times each night to ease the terrible pressure or distention of the bladder.

I am writing now to inform you of the good effect I derived from the use of Dodd's Kidney Pills. After taking four boxes I found they were acting on the material that had accumulated in the bladder, and it commenced to come away in pieces, from the size of a pin's head to the size of a small pea, and looked very much like pieces of oyster shell.

I have used in all nine boxes, and am pleased to say there is now no evidence of Stone or Gravel, and I am satisfied my kidneys are now completely cured, and my general health is much better in every way. You cannot recommend Dodd's Kidney Pills too highly for building up the system. I feel confident that had I not taken them when I did I would not be here now to write this letter.

I have recommended Dodd's Kidney Pills to a great many people who were troubled in a similar way to myself, and always with good results."

Backache—One Box Cured.

Wheelock Heath, near Sandbach,
Cheshire, July 13th, 1901.

Gentlemen,—About twelve months ago I had a pain come in my back that I could not understand, and which caused me great suffering at times. I ached from the small of my back to my shoulders. I tried many remedies but without effect; I got about my work with great difficulty, it

being that of a farm hand; I had difficulty in stooping, and when bent, I had great trouble in straightening myself, and I went from bad to worse. I received one of your Almanacks before Christmas, and then I saw my symptoms described, and knew that it was my kidneys that were the cause of all my trouble. I wrote you at the time, and obtained one box of Dodd's Kidney Pills, and had I been told that one box would have cured me, I would not have believed it. That was really the case, for they acted like magic, and my pains left me after taking a few doses, and I of course felt better in myself. Now at this time of writing I am in good health, and quite free from any symptoms of kidney troubles, thanks to Dodd's Kidney Pills, which I shall always have faith in, and recommend to all troubled in the same way.

Yours truly,
(Signed) FRANK NEWTON.

Kidney and Urinary Trouble.

39, East Pontop Colliery, Annfield Plain,
Durham April 3rd 1901.

Gentlemen,—In June of last year whilst working in the pit, I was unfortunate enough to meet with a serious accident by a fall of stone, my body being crushed very badly. I was laid up for three weeks with this, but found that my kidneys had been affected by the accident. I had some pains in the lower part of the back, and could only do my work under great difficulty, so much so, that when having to reach to the ground, I had to go on my knees to do so, as I could not stoop without great agony. My water was also very thick and muddy after standing, and I began to feel afraid that I had received some permanent injury, when I was induced to try Dodd's Kidney Pills. After taking two or three doses I found a great difference in the water, also in myself; I took three boxes altogether, and feel as well as ever; the pain has quite left me, and there is no sign of the trouble in any way. (Signed) THOS. GERRY.

True Statements.

Dodd's Kidney Pills are said to do a great deal, in this book. There is no doubt about that. They claim to cure all the diseases arising from unhealthy Kidneys. But this is no mere claim. It is a fact. They do it. Dodd's Kidney Pills do as is promised. No false or unendorsed statement has ever been made about Dodd's Kidney Pills. That they will do everything that this book claims, there are written documents to prove.

You're Doubtful.

You've tried many medicines with no good result. What of that? You've never tried Dodd's Kidney Pills. They have never disappointed anyone.

Do not take anything but the genuine DODD'S KIDNEY PILLS.

Rheumatism Cured.

W. G. Davey, Barnham, nr. Thetford, Norfolk.

Writing on July 9th, 1901, Mr. Davey says:—

Last December I commenced taking Dodd's Kidney Pills for Rheumatism; I was a martyr to this complaint. I am employed on a farm, and I think I first got it through cleaning the river bed, it being necessary for me to work in the water, as about this time I felt the first sign of it, and afterwards I aggravated these symptoms through another wet job, which caused me to get wet across the loins, and the rheumatic pains struck me there and in my lower limbs, then worked up to my shoulders and arms. The pains were so severe that I could not rest day or night; my limbs were so swollen at the joints that I could not move them; my fingers were all drawn up to the palms of my hands, and I was perfectly helpless, having to have everything done for me.

I began to think I was never going to get well again, and as I am only twenty-one, you can understand how I felt about it.

Reading about Dodd's Kidney Pills and the cures they had effected, I was induced to give them a trial, and after taking one box I felt that they were doing me good. I took four boxes, and was able to go back to my work, and anyone seeing me before I commenced taking the Pills and after, would have hardly known me as the same man, as during my illness I lost a great deal of flesh. After I once started to get better I rapidly began to put on flesh, and I have not had the slightest touch of Rheumatism since.

(Signed) W. G. DAVEY.

RHEUMATISM.

RHEUMATISM, Lumbago, Neuralgia, Sciatica, and Gout, are nothing but symptoms of diseased Kidneys, and treated as such are always curable.

Rheumatism is caused by the presence in the system of Uric Acid. The Uric Acid crystallizes at certain points; sometimes in one place, sometimes in another. This crystallization causes the terrible pain.

Certain conditions, such as exposure to cold or wet, bring on that crystallization of the Uric Acid, and a consequent attack of this dreadful disease.

Rheumatism appears in many forms, but no matter how or where it comes, there is but one first cause—Uric Acid.

This poisonous Acid is never present in the system when the Kidneys are doing their duty. Healthy Kidneys strain out all the Uric Acid and expel it from the body through the Urinary Organs.

To cure Rheumatism, it is necessary to go at once to the root of the trouble, the unhealthy Kidneys. Cure these, and they will very soon expel the Rheumatism.

Dodd's Kidney Pills have an unbroken record as a remedy for Rheumatism. They have never disappointed any poor sufferer who looked to them for a cure.

The reason of their unbounded success even in the most chronic cases, is that they are an infallible Kidney medicine, made and sold only as such, and their success is a further proof that Rheumatism is a Kidney Disease.

Dodd's Kidney Pills are purely vegetable. They are not a purgative (except in case of an over-dose.) They positively contain no mineral, nor anything that can in any way injure the Stomach, Liver, or Bowels.

Their mission is to cure the Kidneys. They go directly to the seat of the trouble, and get to work at once.

The cured Kidneys strain out the Uric Acid from the blood, and when this—the sole cause of Rheumatism—is gone, the Rheumatism itself surely disappears.

Lumbago, Sciatica, Gout, Neuralgia—these are nothing more than variations in form and location of the symptom of Kidney derangement.

The poisonous Uric Acid is doing its deadly work of destruction and torture.

Tissue, and Nerve, and Blood, and Bone alike, suffer from its biting and blighting poison.

The Kidneys, if cured, will arrest and in time completely remove the cause, and with it the effect.

Dodd's Kidney Pills cure the Kidneys. That's why they never fail in a single case of Lumbago, Sciatica, Gout or Neuralgia.

Ford Water Cottages, Whixoe, nr. Halstead,
Essex, Aug. 13th, 1901.

Dear Sirs,—As a lad I had an attack of Rheumatism in my arms, which has bothered me ever since. In October last it became very much worse, and was so swollen that the elbow bones could hardly be seen, the swelling extending to my finger tips. I was not able to work owing to the swelling, and pain being so excruciating. The doctor told me there was no cure for it. In December I commenced to take Dodd's Kidney Pills, and I am pleased to say that since taking the Pills the swelling and pain have entirely disappeared. I have not lost a day's work since.

It is now seven months since I recovered, and as I have been through my harvest, doing all kinds of work, I feel quite sure my cure is permanent. Mine was undoubtedly a chronic and long-standing case of Rheumatism, and, as I was pronounced incurable by the doctor, I consider my recovery miraculous, and think it should be made known to every sufferer from this painful malady.

Headache.

Nerves often snap in this age of hard work and worry. Headaches always go before a nervous break-down. Kidney poison is eating its way into the system, and injuring and irritating the whole nervous network of the body. These injuries and irritations are telegraphed at once to the brain, and pitiless headache is the result.

Dodd's Kidney Pills Cure the Kidneys and take out the poison; removing the cause, and with it the headache.

In the Morning.

Any person who awakens in the morning at the usual hour, and feels unequal to rising for the day, may at once conclude that the kidneys need prompt attention. Dodd's Kidney Pills make you feel bright and vigorous because they purify the blood and remove the cause of the weariness.

Heart Trouble Cured.

Mrs. E. Carter, Water Newton, Wansford, Hunts.

You are not asked to accept the assertion that Dodd's Kidney Pills will cure a weak heart; you are asked to consider the experience of others, who found in Dodd's Kidney Pills speedy relief, and a permanent cure. The following letter from Mrs. Carter is most convincing. She says, writing on February 4th, 1901:—

Seven years ago I had Diphtheria, and I have suffered from a weak heart ever since. I had a terrible pain at my heart, its action being very irregular, which caused me to suffer from shortness of breath and palpitation. I also frequently felt as if I was going to faint, and I could scarcely walk upstairs without a feeling of suffocation. My regular doctor said he could not cure me, and another said I was to keep my bed until the pain at my heart was easier. I got so much worse that I thought I would have to keep to my bed altogether, and never expected to get well.

I also suffered from a severe pain in my back, and sometimes could scarcely get about the house, the agony being almost unbearable, and I felt I was in everybody's way.

My husband heard of Dodd's Kidney Pills, and insisted on my trying them, and I am thankful to say that after taking a few boxes I can now do my own work, run up and down stairs, and feel quite independent. My husband and children are delighted to see me well again, I shall always take pleasure in recommending Dodd's Kidney Pills, as I can truthfully say they restored me to health.

(Signed) (Mrs.) E. CARTER.

HEART TROUBLE.

THE Kidneys are the greatest friend or enemy the Heart has. In nearly every case of Heart Failure, post-mortem examination shows that the Kidneys were to blame.

To understand this, we must remember that the Heart is a double force pump. Its duty is to pump the blood through arteries and veins to and from every part of the body. In doing this it exerts a pressure which amounts to tons in twenty-four hours.

But the blood must be kept pure. It must be strained. In the middle of the back are the strainers—two of them—composed of thousands of very small thread like tubes. Through these for purification the Heart forces every drop of blood once every three minutes while life lasts. These strainers are the Kidneys.

When the Kidneys are well, they extract the impurities readily, and the life stream is not impeded. If the Kidneys do not successfully extract this poison it remains to clog the blood vessels and impede the circulation, causing the heart to do double work in order to force the stream of life through the circulatory system. The over-taxed Heart will perhaps stand this for a time, but eventually it will falter and break down.

There is still another injury which the deranged Kidneys inflict on the Heart,—the impurities which they allow to remain in the blood, are poison of the worst kind, and this biting venom attacks the delicate tissue of the heart itself, thus deranging and weakening it. Then one day it stops and people wonder why.

Sometimes the Heart makes many appeals for relief before giving up

the struggle against Kidney derangement, in the forms of Palpitation and Fluttering. Sometimes, however, it patiently tries to do its duty till the load becomes too much for its failing strength; it snaps without a second's warning, and a life is done, because of Kidney failure which is the direct cause of nearly every case of Heart Failure, Palpitation, or other Heart trouble.

Following are a few of the danger signals, a knowledge of which may be the means of saving your life.

Symptoms of Heart Disease.

Headache, dizziness, palpitations, fluttering, sleeplessness, flashes of light before the eyes, cold feet and hands, blueness of the lips, faintness on rising suddenly, dull, aching sensation in the heart, shortness of breath, dropsical swelling, distressing dreams, disturbed sleep, congested appearance of the face, jaundiced tint of the skin, and sometimes a cough.

Those who suspect from the appearance of any of the above symptoms that their Hearts are affected should realize the imminent danger of their position. They should hasten that moment to the relief of the overworked Heart, by healing the Kidneys with the only remedy that permanently cures Heart Disease—Dodd's Kidney Pills.

If there be any doubt in your mind that this is the way Heart Disease must be cured, read the following letter :

24, Balfour Street.

Paley Road, Bradford.

Gentlemen,—Seventeen years ago I suffered from rheumatic fever, which left me with a weak heart and other complaints. Now and again I had fits of dizziness, and for many years suffered a great deal, trying a lot of remedies which did me no good. Two years ago I was so ill that I had to keep my bed for some time, the doctor attending me, but still I did not derive much benefit.

Then we heard of Dodd's Kidney Pills, and my husband persuaded me to try them. I have taken eight boxes, and I can positively say they have completely cured me. I am not like the same person, and really believe they saved my life. Certainly they saved me from a life of suffering.

Yours faithfully,

(Signed) Mrs. A. NICHOLSON.

Purely Vegetable.

It was while studying vegetable medicines, that the author of Dodd's Kidney Pills found the constituents which when compounded produced this most wonderful medicine. Dodd's Kidney Pills are a purely vegetable preparation. They positively contain no mineral, nor anything that can in any way injure the Stomach, Liver or Bowels. Many medicines are so strong or obnoxious that they completely derange these organs. Dodd's Kidney Pills are compounded of medicines that heal and cure—not hurt or injure. They are nature's method of curing and she is always safe. Nature has placed these curative properties there, and there they have always been, but it was not till about ten years ago that this remarkable discovery was made.

The name is Dodd's—spelled this way D-O-D-D'S.

Dropsy Cured.

W. H. Scott, Ten Mile Bank, Downham, Norfolk.

Dropsy is an accumulation of water in the system outside of the arteries and other ducts of the body. Dropsy is another one of the positive signs of kidney disease.

Mr. Scott's case was one of long standing. A few boxes of Dodd's Kidney Pills cured him after hospital treatment and doctors failed. He says, writing on July 13th, 1901:—

For fourteen years I was troubled with Dropsy in the lower part of my body, and I tried many things to get relief. I was under a doctor for three months, and getting no better I went into the Cambridge Hospital, and was under treatment there for six weeks. Here I did obtain relief, for the water left my body, and I thought I was cured, but as soon as I got home and lived on the usual fare the water all came back again. I tried other remedies, but did not get any relief until I had my attention drawn to Dodd's Kidney Pills and the cures they had worked in similar cases to mine. I determined to give them a trial, and am thankful that I did, for after taking the first box I was reduced in weight a full stone, and after the third box I had no further sign of Dropsy about me. It is now four months since I stopped taking the Pills, and am glad to say I have had no return of the complaint.

I have a good appetite, and can, and do, eat anything set before me. I sleep well, and altogether feel a different man, and have recommended Dodd's Kidney Pills to many.

Yours truly,
(Signed) W. H. SCOTT.

A TALK TO WOMEN.

THERE is much mystery wrapped round some of nature's methods, and there is a great deal of cant and foolish silence in regard to disorders peculiar to women.

One fact is indisputable. No woman with sound, healthy kidneys, ever has female trouble.

Every woman knows she is liable to trouble from certain disorders peculiar to her sex, and very often a lack of knowledge is responsible for the irregularities to which women are subject.

Nearly every woman knows from sad experience the meaning of back-ache, nervousness, bearing-down pains, irregular, profuse, painful or suppressed menstruation, but very few understand the cause.

Kidney disease is responsible for every one of these symptoms. The distinctly feminine organs would be healthy if the kidneys were sound. The two go together. No organs in a woman's body depend so closely upon others as the reproductive organs on the kidneys.

If the kidneys are sound and healthy all the delicate female organs will work amicably, and the painful symptoms which are accepted almost without question by many as the penalty to be paid by all women, will subside and disappear.

Dodd's Kidney Pills are women's best friend. Helpful and strong, they never fail to render just the assistance a woman needs. Dodd's Kidney Pills act on the kidneys, and by doing so, strengthen the delicate machinery which is prone to get out of order, as soon as the kidneys are not doing their duty.

Young girls at the critical age when childhood is being left behind, young wives and mothers, tired house-

keepers, mothers of families, and women entering upon the Change of Life will all find in Dodd's Kidney Pills an unfailing friend, a safe, sure, reliable medicine, to help them over the hard trying places where health and life are so often lost.

If a woman finds that her health is not just what it should be, her remedy should be Dodd's Kidney Pills. Let her try a box and see how much better she will feel.

Nor will she be trying an experiment. For years Dodd's Kidney Pills have been used by the women of several continents, and the result is the same, a striking continual chorus of praise.

A difficult subject to deal with is the question of woman's health, but the time has come when the plain facts should be set forth before suffering womanhood, and a proven remedy brought easily to their hand.

52, Alpha Road, Southville, Bristol,
March 11th, 1901.

Dear Sirs,—I wish to acknowledge my gratitude to you for the relief I have received from using Dodd's Kidney Pills. I was a great sufferer for more than two years with general Debility and pains in the back below the waist; in fact, my life was quite a burden to me, and worse than the pains was the dreadful depression of spirits I suffered from. Looking back now to that time I feel a great pity for my children, remembering how intensely irritable I was. My sight became so blurred that I had resolved to see a Specialist about it, when I happened to read one of your Almanacks, and there I saw under the kidney symptoms exactly my own case, so I at once got a box of Dodd's Kidney Pills, and have now taken eight boxes, and am most grateful to say that I now feel better than I have done for years past. I have recommended your Pills to a number of friends, and always tell them what they have done for me.

Wishing you every success for the boon Dodd's Kidney Pills are to the human race.

I remain, yours faithfully,
(Signed) (Mrs.) A. MANARD.

Woman's Best Friend.

Dodd's Kidney Pills have always been called "woman's best friend," since first they became known. They are so helpful and strong, and yet so gentle and mild in their effects, that no other medicine is such a boon to woman kind. Weary women, irritable and run down, find life a misery. Dodd's Kidney Pills made life pleasant. They tone up the kidneys, make many female disorders impossible, and by purifying the blood, act as the finest invigorating tonic for nerves that are broken down. If a woman doesn't feel herself; if her daily round is a burden, she should try this successful remedy at once. How many women have written to thank Dodd's Kidney Pills for making life a thing worth living! How many women have said from the bottom of their hearts, "Dodd's Kidney Pills are women's Best Friend!"

Neuralgia Cured.

Robert Shackell, 41, Rose Street, Hull.

In his letter of June 20th, 1901, he says:—

For six years I suffered untold agony from terrible stabbing pains in my right eye, caused by Acute Neuralgia, which impaired my eye-sight. I was greatly troubled with dizziness, and much depressed, memory bad, sleep disturbed, and had a bitter taste in the mouth in the morning; my joints became quite stiff with Rheumatism, and so bad have I been with Neuralgic pain that I have had to absent myself from duty for days until the pain was somewhat relieved.

I was under eleven doctors, including two of the most eminent Ophthalmic Surgeons in this city, but after taking any amount of medicine the relief was only temporary, the pains always returning.

Later I attended the Hull Royal Infirmary as an out-patient for several months with little or no benefit.

Another doctor I was under suggested severing the nerve leading from the eye to the head, but to this I objected. Finally, after being under another medical man for eighteen months, I decided that I could get no relief from the medical fraternity, and gave up all hopes of being cured. Then I heard about Dodd's Kidney Pills, and when I had taken five boxes the pain had entirely ceased, but I take a Pill now and then just to keep myself in trim.

I am positive my trouble was caused by disordered kidneys, and I would strongly advise anyone suffering from Neuralgia, Rheumatism, or Sciatica to take Dodd's Kidney Pills. I only wish I had heard of them years ago, as I should have been saved a deal of suffering as well as expense.

(Signed) ROBERT SHACKELL.

GRATEFUL WOMEN TESTIFY.

WHEN a woman allows her name to be published over a testimonial for Dodd's Kidney Pills broadcast throughout the world, it is easily understood that the highest possible motives alone induce her to do so. It means that she is sincere, earnest; that she is anxious to help others. And more than all, it means that she believes in Dodd's Kidney Pills,—she *knows* they are good. Dodd's Kidney Pills have won thousands of such testimonials as those printed below. But a thousand letters couldn't tell any more. They all amount to the same thing—"Dodd's Kidney Pills are women's best friend."

Writing from Sinclairtown, Kirkcaldy, N.B., on April 7th, 1901, MRS. A. SANDFORD says:—

I had been for years a great sufferer from my Kidneys, also Indigestion. I always felt dull, and frequently an inability to do any work. My stomach was in a very bad condition, and would turn sour at the slightest thing; and I was troubled with a swimming sensation, so much so, that I did not feel it safe to cross the road when there was any traffic. I would sometimes become quite numb all down one side, and I suffered very much with rheumatism and neuralgic pains, and had a burning sensation in the region of the kidneys; in fact, I suffered from a complication of complaints.

I was under several doctors, but did not derive any permanent benefit from their treatment. After reading of the cures effected by Dodd's Kidney Pills and Dodd's Dyspepsia Tablets, I made up my mind to give them a trial, and before taking a box of each I felt wonderfully better. I continued their use, and soon began to enjoy life better than I had ever done before, and my only object in writing this letter is that I would advise all women who are suffering in a similar way to take Dodd's Kidney Pills and Dyspepsia Tablets. I may also say I find the Pills a splendid tonic, whenever I feel run down.

I might mention that a lady friend told me that Dodd's Kidney Pills had taken the rheumatism out of her joints after suffering for ten years from this painful malady.

I shall always recommend the Pills and Tablets, for I firmly believe they are all you claim them to be.

Nervous Debility.

Littlebury, Saffron Walden,
Essex, July 1st, 1901.

Dear Sirs.—Three years ago I had a severe attack of Kidney Disease and Dropsy, and have never felt like myself since. I have suffered a great deal from a pain in my head over the right eye. During

the winter I felt as if I had no life in me, so faint and sinking, and when in bed my heart used to beat violently, and my limbs would tremble that I could not keep them still. My back used to ache, and I felt always tired, and my work was a burden. After I had taken the first box of Dodd's Kidney Pills I began to feel decidedly better, and after taking two more boxes can now attend to my household duties with pleasure.

I cannot say too much in favour of Dodd's Kidney Pills. Yours sincerely,
(Signed) (Mrs.) M. FALL.

Backache and Urinary Trouble.

Heckingham, near Loddon, Norwich,
July 8th, 1901.

Gentlemen.—I write to thank you for your kindness in replying to my letter and sending me your rules for Self-Examination; also for promptness in sending me the Dodd's Kidney Pills. Up to the time of sending to you I had suffered a great deal with pain in my back and left side. The water at times was thick and muddy, at others like the white of an egg mixed with blood. These symptoms made me very uneasy, my age being 61 years. I hardly expected to get well again; my doctor did not seem to understand my ailment and did me no good, and I bless the day that one of your books was given to me, for on receipt of the Pills I commenced taking them at once, and I would not have believed it if I had been told that they would act upon me so rapidly. I felt the effects of the first Pill, and in the course of a week I was able to get up, and have continued improving ever since taking them. I now take one or two a week, which keep me right.

I cannot speak too highly of Dodd's Kidney Pills, for they have worked wonders for me, and I cannot express the gratitude I feel for my cure. Dodd's Kidney Pills, to use one word, are magnificent. You are at liberty to use this letter. Yours truly,

(Signed) (Mrs.) T. THIRKETTLE.

Danger of Imitations.

The public is earnestly warned that there are a great many imitations of the Dodd's remedies on the market, as might be expected, owing to the wonderful success of both Dodd's Kidney Pills and Dodd's Dyspepsia Tablets. Having only the reputation of Dodd's Kidney Pills to trade on, these imitations bring disappointment and despair, whenever relied upon. See the large number of testimonials of those who having "tried everything else," at last, almost without hope, began to take Dodd's Kidney Pills, and were cured.

Trust only your own eyes. Read the name DODD'S and you may be sure you have the genuine Kidney remedy.

Don't buy something else and then conclude that Dodd's Kidney Pills will not cure you. Dodd's never disappoint, while imitations always fail.

The name is Dodd's—spelled this way D-O-D-D'S.

From Death to Life.

G. Brain, Tanworth-in-Arden, near Birmingham.

Writing on April 16th, 1901, Mr. Brain says:—

It was in September, 1899, that I had an attack of diphtheria; then I lost the use of my limbs. I could not move hand or foot, nor even my head on the pillow; my hands were clenched and the nails were almost grown into the flesh; the feeling I had was the same as one gets in the arm after a sharp rap on the elbow. I could not speak, and my teeth were set as though in a vice; my feet and ankles were very much swollen. I was taken to the Stratford Hospital, and the doctors applied the electric battery, but I could not even feel it.

I was getting no better, and as I was told there was no hope for me, I thought I would rather die at my own house. The very day I was taken home (that was in March) a neighbour told my wife about Dodd's Kidney Pills, and by the time I had taken one box I could get my fingers open a bit. I kept on taking them, and was soon able to get up for an hour a day, and after a bit I could sit up from dinner-time till night: then I got about with two sticks just a few yards, and so I kept getting better and stronger, till in July I was able to go to work again, and as that is nine months ago and I am as well and strong as ever I was in my life, I feel sure I am cured for good.

I took no medicine except the pills, so it was Dodd's Kidney Pills that cured me. They put new life into me, after I had given up all hope, and I am sure that but for them I would be in my grave to-day.

(Signed) GEORGE BRAIN.

NERVOUS DISORDERS.

HOW many people have weak nerves, with the attendant ills that make life a misery?

How many people having weak nerves, know exactly why?

The nerves are the organs of sensation, and are fed by the blood, like every part of the body. If the blood contains poison from the kidneys, the nerves suffer, and when the nerves suffer, life is not worth living.

A man with unstrung nerves is like a piano out of tune. He is altogether below concert pitch. He is irritable, easily startled, moody without cause, and worries over trifles that in health he would laugh at.

Women with weak nerves are irritable, hysterical, sleepless, martyrs to neuralgia, and a hundred minor troubles that make life unbearable.

If the condition continues, other disorders develop, including paralysis and insanity. In paralysis half the body is practically dead, for the nerves are not carrying their messages to the brain. Insanity is partial or complete paralysis of the brain. The poison in the blood has attacked the brain itself, and the whole system has collapsed.

Blame first of all the poisoned blood that has ceased to feed the nerves; then blame the kidneys which have not cleansed the blood. If you want to recover, see to the kidneys first, and take Dodd's Kidney Pills; thousands have done so with the best results. They will make the kidneys act perfectly, and the result is, pure nourishing blood, well-fed nerves, and a rejuvenated system.

Dodd's Kidney Pills have done this time after time. Even paralysis and insanity have yielded to the effective remedy, which strikes at the starting point of all disorders—the kidneys.

ALCOHOL AND ITS ABUSE.

Closely related to many nervous diseases is the abuse of alcohol. Besides sapping the energy of the nervous system by continual excitement, the use of alcoholic liquors results in serious injury to the kidneys and other dependent functions.

The kidneys are overworked and then follow serious symptoms. The tissues and membranes of the urinary organs become inflamed, other functions of the body are disordered and the blood becomes impoverished. The result is nervous exhaustion, loss of strength, through declining appetite, severe depression, continued sleeplessness, dizziness, and trembling of the limbs.

Dodd's Kidney Pills first make perfect the over-worked kidneys, which filter from the blood the cumulative poison that is engendered by a persistent use of alcohol. This done, half the battle is won, and the deranged stomach, liver, and nervous system begin to work with renewed energy.

No known medicine can counteract the effects of alcohol so quickly as Dodd's Kidney Pills, which strike at the kidneys, the first organ to give way to the drink habit.

Dodd's Kidney Pills not only minimise the injurious effects of excessive drinking, but being essentially a *tonic*, they fortify the system generally to such an extent as to greatly lessen the unhealthy craving for alcoholic stimulants.

Indigestion and Kidney Disease.

Many people suffering with Diseases of the Kidneys are also troubled with Indigestion. In this case Dodd's Dyspepsia Tablets will be found to work in perfect accord with Dodd's Kidney Pills. Dodd's Dyspepsia Tablets tone up the Stomach, strengthen digestion, and remove all pain and misery which goes with Indigestion.

Dodd's Dyspepsia Tablets are not a purgative, and will not weaken. In tablet form, they are convenient and easy to carry about, and to take at proper intervals.

Dodd's Dyspepsia Tablets are prepared solely to cure Indigestion, Dyspepsia and all diseases of the stomach.

Dodd's Kidney Pills and Dodd's Dyspepsia Tablets give perfect action of the kidneys and stomach, plenty of pure rich blood, and perfect health.

They have cured thousands of cases and are famous all over the world.

Hopeless and Helpless.

J. Walters, 39, Dudley St., West Bromwich.

Undoubtedly Dropsy, Inflammation of the Kidneys, Gout, &c., are directly due to kidney poison. Dodd's Kidney Pills are a direct remedy for such disorders.

Writing on July 19th, 1901, Mr. Walters, says:—

About a year ago I had a very severe attack of Dropsy, Inflammation and Gout, so severe that I was forced to take to my bed, and remain there for four months, during which time I, with my friends, began to consider my case hopeless. I was terribly swollen all over my body, my legs being three times their natural size. Medicines were apparently of no use to me: friends advised me to try this and that preparation, but all to no purpose. Another friend, however, came to see me, and seeing what a bad case mine was, and he having heard of Dodd's Kidney Pills, advised me to try them and as a last resource, and with very little faith, I tried a box.

Feeling some little benefit from them, I tried another box, and judge of my surprise when I found myself not only able to leave my bed, but to get about the house. Still continuing to take them, I was enabled to go a short distance and in a few weeks was able to resume my employment, which is that of a pianoforte tuner. I am thankful to say that since then I have had no further recurrence of the trouble, my health now being all I could wish for. I cannot over estimate the value of Dodd's Kidney Pills, and I am sure it was nothing but them that saved my life.

(Signed) J. WALTERS

WHAT KIDNEY POISON IS.

WHAT is the Kidney poison of which previous pages speak? What is this danger that lurks within the body; the enemy which the kidneys so often fail to remove? This is a question often asked, and we will try to make it clear.

The position is very simple. Good fuel will burn in a clear grate, but as it burns it leaves clogging accumulations of dead ashes behind it. If you add fresh fuel, and leave the dead waste ashes in the grate, the fire will not burn so brightly, and by and bye, it will go out altogether, choked by the waste of its own combustion. You must keep the grate clear.

So with the body. You add fuel in the shape of food to feed continually changing tissue. The ever changing system decays and re-builds itself, and in the process dead waste matter is formed and flows with the blood. This matter, if it is not taken from the system, becomes immediately a deadly poison, and it will speedily choke the body, just as ashes choke the fire in the grate.

Nature, to clear away the waste, has given to each of us kidneys. The kidneys should separate all the decayed matter from the blood and instead of letting it remain in the body, should send the pure red stream of life forward free from impurity.

The kidneys cleanse the blood, take away foulness that nature is constantly throwing off, and expel it through the urinary organs.

If the kidneys are not healthy, they do not fulfil this duty. The waste caused by the wear and tear of the body, remains, poisoning the blood, polluting the system, undermining and impeding every other organ.

You cannot live without kidneys. Experiments on animals prove this. Once stop the urinary channels, and you set up all the symptoms of kidney poison from minor symptoms through every stage to the end, frightful pain convulsive stupor and death.

The reason is obvious. Waste and impurity are kept within the body and the blood, the life stream, is a tainted poisoned fluid, unclean itself, and unable to renovate and restore.

If your kidneys are slightly deranged, there is a steady gathering of poison in your system, and you cannot be well; if you allow the disorder to take its head and develop into actual decay of the organs themselves, the fire of life will gradually burn lower, and at last, smothered by the uncleared refuse, will go out.

What healthy kidneys take out; what weak kidneys leave behind, is kidney poison, and most of the ills we bear, are due to it.

Keep the grate clear and the fire will burn brightly; keep the body pure and sweet, by seeing to nature's cleansers, the kidneys, and life will run with a merry swing.

If you think your kidneys are not as they should be, if your symptoms tell you that a loathesome poison is creeping into your blood, get help for the weakness. Dodd's Kidney Pills have stood the test of years, and bear a world wide reputation for helping kidneys that are not acting properly. They never fail to restore the kidneys, even in advanced and complicated trouble, and to many sufferers they have meant a life's salvation.

How very important it is therefore to be sure that the kidneys are sound. The rules for Self-Examination on page 3 will enable you to make sure.

Cause of Kidney Disease.

The most frequent cause of Kidney trouble is exposure to cold and wet. Every time one catches cold, the Kidneys are in danger. There are very few nerves in the Kidneys, and they therefore cause but little pain until they are very bad.

Failure to urinate when nature calls is also a cause of Kidney and urinary ailments. No matter what the cause, there is always great danger to the general health. No matter what has brought it on, Dodd's Kidney Pills will cure it. Men or women, boys or girls will always find a sure cure for Kidney derangements in Dodd's Kidney Pills.

There's a difference between a medicine that only "relieves" and one that "cures." Dodd's Kidney Pills relieve, but they do more. They cure to stay cured. Thousands of testimonials have been published proving this.

Considered Hopeless.

Albert Brant, Laceby, Grimsby.

In his letter, dated May 24th, 1901, Mr. Brant says:—

For twenty years I suffered with severe pains across the lower part of my back, more particularly over the region of my left kidney. The pains at first came on at intervals of several months, and lasted two or three days. Later on they became more severe and lasted longer; there was evident symptoms of disorder of the kidneys, the urine being the colour of blood and containing sediment.

Seven years ago I went to the Hull Infirmary. There I was told it was a stone in the kidney, and the doctors wanted me to undergo an operation, but I would not consent. But the worst came in December, 1899. Till September I was only able to work a day or two in a week, and the pain at times was almost unbearable. I then, on the advice of my doctor, went into the Hull Infirmary as an indoor patient. They said the kidneys were affected, and also thought there were probably three or four small stones, and gave me medicine to dissolve them. This treatment greatly affected my heart, and had to be discontinued for a time. I was in the Infirmary for a month, and an out-door patient for eight weeks, but got no better. The doctors again wanted me to undergo an operation, but I refused.

It was then I resolved to try Dodd's Kidney Pills. I have now taken six boxes, and am able to follow my employment, which I was unable to do for fifteen months.

I ascribe my cure solely to taking Dodd's Kidney Pills. They have affected in my case (which was considered hopeless) what the treatment of seven doctors could not do.

(Signed) ALBERT BRANT.

THE KING OF TONICS.

IF you don't "feel" well, you most certainly are not well. The feeling is generally a safe guide.

There is something wrong with a man, or woman, or child who says "I don't feel well."

Nature is protesting. Mildly perhaps, but if neglected, this warning will be followed by something that will make you "feel" worse. Your Kidneys are not acting properly. They are failing in their work of abstracting from the system the seeds of disease and poisonous impurities, and this "not feeling well," simply means that these poisons are gradually creeping through your system, and selecting a favorable spot in which to appear in the form of some disease. Correct the Kidneys at once.

As a general tonic, Dodd's Kidney Pills are unequalled. By their action on the Kidneys, they restore vitality to every organ of the body, and tone up the whole system.

Note the great number of testimonials which contain expressions such as "I feel like a new man;" "I feel better than I have for many years;" "Life is now worth living;" "I feel ten years younger;" etc., etc.

Dodd's Kidney Pills are the King of Tonics, because they work with Nature, by encouraging and assisting the Disease-expellers—the Kidneys—to cast out everything impure or diseased.

Read the rules for self-examination on page 3.

Getting Well and Keeping Well.

Some people gain very rapidly after a serious illness. Others drag along weak and weary, for weeks and sometimes for months. The vitality comes back very slowly, and

the after effects of a bad illness are often felt for years or for life.

There should be no "after effects." Nature has made provision for prompt restoration to complete good health. The disease (Fever, Pneumonia, Influenza, or any other), tears down and destroys. The battle rages in the body, till the disease is defeated, and when this takes place, the whole system is like any other battlefield, it is strewn with the wreckage of war.

The remains of diseased tissue, and broken and lifeless muscle and sinew, with the millions of dead and dying germs of disease, literally crowd the avenues of the body. If these are not collected and expelled, by Nature's great purifiers, the Kidneys, they will certainly decay, poisoning and destroying good health, and thus retarding recovery, or bringing on a relapse of the disorder.

Doultong, Shepton Mallet,

Somersetshire, July 5th, 1901.

Dear Sirs,—I have for years suffered from acute pains in the back, and between the shoulders; the pain being like a stab of a knife; for days at a time I could scarcely move about, and was unable to sleep at nights. The doctor treated me for Rheumatism, but neither his medicine or other preparations I tried afforded me any permanent relief. I got a box of Dodd's Kidney Pills, and am grateful for the benefit derived, as I feel like a different person, for they do all that is claimed for them. I also find them a grand tonic, and if I take one or two Pills after a hard day's work, or when a little run down, they soon brace me up.

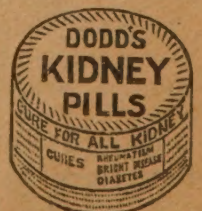

I warmly recommend Dodd's Kidney Pills to all who suffer from Rheumatism, or to those who require a tonic.

Yours very sincerely,

(Signed),

(Mrs.) H. HUGHES.

The only tonic, Nature's tonic, is the King of Tonics, Dodd's Kidney Pills.

The Starting Point.

Dodd's Kidney Pills have upset many old time theories on the treatment of disease. They differ from every other medicine, because they cure disease in the only natural way. They begin with the Kidneys as the starting point. They promptly correct all Kidney derangements. The result of this Kidney correction is felt immediately in every part of the system, and health follows because the cause of disease has been removed.

Backache.

Lame back is the surest sign of Kidney disease. Do not neglect it a moment. Use Dodd's Kidney Pills at once. There never was a backache that Dodd's Kidney Pills did not promptly relieve and permanently cure.

Dodd's remedies are often confused with imitations nearly the same. Be sure you get D-O-D-D'S.

A Living Miracle.

R. Hulton, 71 Darwin Street, Bolton.

Mr Hulton's testimony reads:—

I was born near Bolton; a few years ago I went to Scotland, and was employed at Messrs J & P Coats' Spinning Mill, at Paisley

In August, 1899, I first began to have pains in my back, and I found I was losing strength, but I kept on at my work. At last I was obliged to call in the doctor, who told me that my kidneys were badly effected.

My body, legs and face were very much swollen, and I weighed nearly sixteen stone, whereas before my illness I weighed only twelve stone.

My urinary system caused me great trouble; I could not sleep, and had great difficulty in getting my breath; I had a burning and itching sensation at the back of my eyes; my stomach was also very bad, and I had no appetite, and got so weak that I was compelled to keep my bed, and for six weeks I could not move without help.

We called in two other doctors, and after a consultation they gave up all hopes of my recovery, and told my wife that even if I did get up again I would never have the use of my legs, as my spine as well as my kidneys, were badly affected.

I saw an account of a case something like mine that had been cured by Dodd's Kidney Pills, and no one could believe the good I got from the first box, and by the time I had taken five boxes, I was back at my work, after having been away from the mill fifteen weeks, and almost at death's door.

I consider I am a living miracle, and as a year has passed since my illness, and I am to-day as well and as strong as ever, it proves that my cure is a permanent one.

(Signed) R. HULTON.

HEALTH HINTS.

THE human body is surrounded by enemies. Every breath is laden with death-dealing germs. Every mouthful of food and drink carries that which can destroy. The attacks of these enemies are unceasing. Every moment of our lives they surround us, relentlessly waiting and watching for a favourable opportunity to strike, but the healthy body is amply fortified against all disease.

The Kidneys, if doing their work properly, make it impossible for this destroying host which continually surrounds us, to get a grip on the body. If, however, these natural strainers are clogged, or in any way impaired, the body's millions of enemies are never slow to take advantage of the opportunity presented.

It is important then to keep the Kidneys well. Dodd's Kidney Pills are made to cure failing Kidneys. They do it. Use Dodd's Kidney Pills, and you can defy disease.

DANGER.

Have you noticed that pain or a tired feeling in the region of the Kidneys always goes before a bad illness? You remember how gravely the doctor shakes his head when you say "yes" to this question as to "pain in the back?" What does it all mean? Simply this—that all serious and fatal diseases have their beginning just there in your Kidneys. The doctor knows it. If you keep your Kidneys well, you won't need the doctor.

Dodd's Kidney Pills make and keep the Kidneys well.

DRINKS.

Drink plenty of pure cold water (not iced). If not pure, boil, and allow it to cool. An abundance of pure water is helpful in case of

Kidney or Bladder trouble. Anything containing alcohol is irritating to the Kidneys and Urinary Organs. That is why Dodd's Kidney Pills are put up in pill form. All liquid medicines contain more or less alcohol, which must and does inflame these delicate organs. Dodd's Kidney Pills being in pill form, are positively harmless.

DIET.

Complete rules as to diet will be found in every box of Dodd's Kidney Pills. As the circumstances of each case differ from those of any other, these rules should be modified to suit your own particular condition. Under no circumstances, however, should your diet be such as to reduce your strength. Keep the Stomach in healthy condition and eat plenty of nourishing food. Use no medicine that by its offensiveness upsets your stomach. Dodd's Kidney Pills being purely vegetable are easily digested, and go direct to the Kidneys, having no effect whatever on the Stomach. Dodd's Dyspepsia Tablets will assist the Stomach, if it is weak, sick or tired.

WHAT'S WRONG?

You are out of sorts; you know it; but you don't know what is the matter. There is no particular point affected, but you are not yourself. You are tired when you get up, tired all day, and tired at night. Your head feels heavy and stuffy, your feet feel like lead when you walk, and every part, from head to foot, seems out of gear. It is the Kidney poison in the system that causes that terrible tired uneasiness all over you, that numbs your brain, your nerves and heart. Get rid of it by the aid of Dodd's Kidney Pills, and you will feel all right.

THE FAMILY HEALTH.

To protect the household against disease, is as much a duty of the head of the house, as it is to provide a roof to protect them from the weather.

In order to do this, it is necessary to know Nature's way of protecting humanity against ill-health of every kind.

Nature has provided the Kidneys for the chief purpose of abstracting the poison that breeds disease.

To these organs then we must look for general all round protection.

We should be careful at frequent intervals to satisfy ourselves that the Kidneys are safe.

This is done by an examination of the Urine, and every member of the family should undergo this test at least once a month. (For rules see page 3).

It costs nothing, is very little trouble, and the discovery of the presence of the deadly Kidney derangement, if followed by prompt action, may save yourself or some of your loved ones from a long illness or may be from death.

If the test shows that the Kidneys are deranged, use Dodd's Kidney Pills at once. Keep them always on hand, use them promptly, and the family will be well protected against every form of disease.

The Kidneys are the foundation of health. Upon the Kidneys the whole body depends for its cleanliness and freedom from disease. Every drop of the life stream flows through the Kidneys once every three minutes; sent there to be relieved of all the impurities it collects in circulation. If the Kidneys do not take out these, and send the blood onward, rich, red, vigorous, and free from poison, disease will

surely follow. Dodd's Kidney Pills will enable the weak Kidneys to regain lost vigour, and thus restore health to the whole system.

To Secure Health in the Home.

Nature cures all diseases if given a chance. At the most, all she needs is assistance. Medicine can only help nature, and allow her to proceed in the work of restoration in her own way.

The Kidneys are Nature's great medium for the expulsion of disease, as they are through faulty action the great cause of all disease.

Dodd's Kidney Pills owe their success to the fact that that they go at once to the root of all human sickness,—diseased Kidneys.

In this way they cure or prevent almost all the diseases and complaints, that attack the members of a household.

Dodd's Kidney Pills restore the Kidneys to health, and fit them to do their cleansing work, which is their natural function.

Nature thus armed with sound Kidneys defies disease. If by the slightest failure of the Kidneys, disease has already found an entrance, restore them, and Nature at once casts out the enemy.

No drug can permanently cure any disease in any other way. A partial or temporary relief may be accomplished, but the cause of the disease remains, and is sure to return.

By keeping the Kidneys sound, Dodd's Kidney Pills have come to be the greatest family medicine. A household where Dodd's Kidney Pills are kept and used, is protected against any and all forms of sickness. Because sound Kidneys mean general good health.

CAUSE AND CURE.

BY their failure to carry away the impurities and acid poisons from the system properly, the Kidneys are the real cause of nearly all human sickness and weakness.

Strengthen the Kidneys by Dodd's Kidney Pills, and enable them to perform their natural function of gathering up and expelling these disease-breeding poisons and waste matter, and the Kidneys will very soon remedy the unfortunate results of their previous weakness.

Bladder and Urinary Troubles.

Bladder and Urinary Troubles invariably have their beginning in sick Kidneys. Dodd's Kidney Pills are a sure cure for all such ailments. They heal the Kidneys, correct their action, and the cause of the irritation being removed, the Bladder and Urinary Troubles soon disappear.

Influenza and its After-Effects.

The only persons to escape this disease are those whose Kidneys are well enough to fortify them against all its attacks.

Have you noticed how many people, when recovering from Influenza, complain of a pain in the back? It's their Kidneys. If they had been all right in the first place, there would have been no Influenza. They are impaired, and now Influenza is attacking this weak point. Be warned in time. This may be the first stages of Bright's Disease, Diabetes, or Dropsy. Don't trifle with a sore, lame back. Dodd's Kidney Pills will cure it, and enable your Kidneys to resist Influenza or any form of disease.

Busy Men take Heed.

Busy men neglect their health. Planning and working and struggling to make a living, acquire wealth

or pay debts, they make fearful demands on their bodies and brains. They overwork themselves and forget that in the struggle they are losing something more precious than gold,—the priceless boon of good health.

Such men always forget their Kidneys, till Rheumatism, Lumbago, Sciatica, Dropsy, Diabetes, or Bright's Disease gets a tight grip on their bodies, and then, and not till then, they stop and think. Men, be warned in time.

Kidney Disease creeps on without violent pain. Every man should make an examination of his urine at least once a month. It costs you nothing to do so. See rules for self-examination on page 3. If the tests show that your Kidneys are sound, you need have no fear of any illness, for while they are well they will protect you against all forms of disease.

But if the tests indicate a derangement of the Kidneys, don't trifle or delay; for it may be that Dropsy, Diabetes or Bright's Disease is slowly creeping on, and if not checked, will strike you down. Dodd's Kidney Pills are a sure cure for all derangements of the Kidneys. Men and women in all walks of life, of all countries, at every age, declare in writing, Dodd's Kidney Pills will do what is claimed for them.

The Difference

There is a difference between a medicine that only "relieves" and one that "cures."

Dodd's Kidney Pills make a permanent cure.

It is wiser to spend your money on something that is good for years, not for days. Get rid of the trouble altogether by using Dodd's Kidney Pills.

THE STOMACH.

MOST of us forget that we have a Stomach and that it deserves some care and consideration, till it rebels against this daily neglect, and forces us to give it attention.

We take care of hands and feet. We find time and place to rest the arms, and back and limbs, and give them an opportunity to regain strength spent in daily toil.

But the poor, tired, over-worked Stomach is forgotten, and upon it is heaped day and night, year after year, thoughtless burdens without end.

Meals of indigestible food, often poorly selected, and poorly prepared, are forced down without any thought as to the Stomach's ability to properly digest the heavy load.

Drinks too hot or too cold are swallowed with never a care as to the probable effect on the Stomach.

We eat too fast ; we eat too much ; we eat irregularly ; we overload and overtax the Stomach, till it is no wonder that this faithful servant sometimes cries out in the voice of Heartburn, Sour Stomach, Bloating, Indigestion, or Dyspepsia, "Oh ! give me a little chance to rest !"

The body needs nourishment. We get this from properly digested food. A man or a woman who toils with body or brain must eat plenty of nourishing food, and this must be properly digested and assimilated by the Stomach.

How then, may one nourish the body and at the same time rest the Stomach ?

The much advertised methods for the cure of Stomach troubles, simply starve the body, and thus rest the Stomach. That's about all their treatment consists of—REST.

But everybody can't afford to lie

up and starve for a month or two. Daily duty must be done. Strength expended must be regained. Nourishment is a necessity. What can such a busy one do ?

Dodd's Dyspepsia Tablets answer that question.

Taken (one or two) immediately after each meal, they digest the food—animal and vegetable—every bit of it, with little or no assistance from the Stomach.

Thus they enable the Stomach to rest and regain its lost vigour ; at the same time furnishing the body with the necessary strength and nourishment.

Gradually, as the Stomach gains strength to do its own work again, the dose may be lessened, till finally, health being completely restored, the treatment may be discontinued.

The first symptoms of Stomach Trouble should be regarded as an appeal from that important organ for rest.

Give your Stomach a fair chance.

Don't wait for Dyspepsia. Use Dodd's Dyspepsia Tablets in time.

The Liver and Bowels.

The Liver frequently needs a little help. In every box of Dodd's Dyspepsia Tablets for the Stomach, there is enclosed an envelope containing small brown Tablets.

These brown Tablets are for the Liver and Bowels, and are positively the best aperient known. If the Bowels are constipated or the Liver acting badly, one to three of these at night, will promptly correct the trouble. They are made to be used with the Dyspepsia Tablets, being part of the treatment for Indigestion and Stomach Trouble, and are to be used only when a purgative is necessary.

INDIGESTION.

WHAT is commoner than to hear people exclaiming that they cannot digest their food properly? The man or woman with plenty to eat suffers the pangs of martyrdom because he wants to eat and satisfy his hunger. Yet is afraid to do so owing to the pain and discomfort that follows.

The poor man with just sufficient food to feed him, cannot enjoy his plain, hard-earned fare for the same reason.

On the other hand how different is the case with the comparatively few whose stomachs are sound. They think nothing about their digestive organs and do not even feel digestion going on. They do not know what a blessing a good digestion is. No one does until he loses it. Then no trouble or expense is too great in the effort to regain that blessing.

Dodd's Dyspepsia Tablets have proved the most successful treatment for Dyspepsia and Indigestion yet invented. Read the following symptoms over carefully and see if they correspond to your own feelings. If they do, Dodd's Dyspepsia Tablets are exactly what you want.

SYMPTOMS OF INDIGESTION.

Pain in the chest after meals.
Feeling of weight and discomfort.
Flatulence or wind.
Pain in stomach.
Coated tongue.
Undue thirst.
Vomiting.
Loss of appetite.
Distaste at sight of food.
Giddiness.
Dry cough.
Nasty taste in the mouth.
Nervousness.
Acidity and heartburn.

Hiccough, flushings in the face.
Headache, specks before the eyes.
Feeling of inertia, low spirits.
Inability to work well.

Eruptions on the skin, such as nettle rash and redness of the nose.

Drowsiness, sleeplessness.

Palpitation and constipation.

Gurgling noises in the bowels with pain in the right side just above groin.

Fidgetting, neuralgic pain over the heart.

Foul breath.

Fluid rising from the stomach.

Sallow complexion, etc., etc.

Any of these symptoms should be sufficient warning. Don't wait, don't experiment. Dodd's Dyspepsia Tablets are sure. They cure Dyspepsia. That is a fact, a certainty. No experiment is necessary.

Now it may happen that you are taking Dodd's Kidney Pills, or are about to take them. Don't let that fact deter you one moment, from using Dodd's Dyspepsia Tablets if you have the symptoms of Dyspepsia. The two remedies were made to be taken together, each, in fact, assisting the other, and all fear of them conflicting may be laid aside.

Indigestion in Children.

Almost every pain that tortures the baby is caused by Stomach Troubles.

Dodd's Dyspepsia Tablets are the very best possible medicine for children. They are like sweets. Children cry for them. They are perfectly safe. A child might eat a box of them without any permanent injury. They digest the meal, all of it, furnishing the growing body of the little one with needed nourishment, and avoiding all possibility of sour stomach, colic, bloating or distress, at the same time resting and toning the Stomach.

A Tablet may be cut in two or three pieces, to suit the age of the child.

DODD'S DYSPEPSIA TABLETS

FOR many years after the first wonderful success of Dodd's Kidney Pills, there was a constant demand for a medicine equally as good for Dyspepsia, which might be used in conjunction with Dodd's Kidney Pills. Such a medicine was at length discovered, and introduced to the public in the form of Dodd's Dyspepsia Tablets.

Kidney Disease and Dyspepsia in the vast majority of cases have been found to accompany each other. It is quite natural that such should be the case, the stomach, sharing in the general weakened condition of the whole system. To answer the requirements of this large class of sufferers Dodd's Dyspepsia Tablets were especially compounded, and their success has been beyond all question.

Dodd's Dyspepsia Tablets may be used together with Dodd's Kidney Pills in perfect safety. They do not conflict or interfere with each other in any way, that being the express danger guarded against by their discoverer. This is true of no other remedy advertised for Dyspepsia.

In cases where Dyspepsia is not accompanied by Kidney Disease, Dodd's Dyspepsia Tablets may be used independently, and the results will be equally good.

Dodd's Dyspepsia Tablets are good-sized tablets, round in shape, with the word Dodd's stamped on them in raised letters. They are composed of the finest natural digestants known, pepsin, diastase and others. They are easily taken, have a pleasant taste, and may be conveniently carried loose in the pocket.

In every box of Dodd's Dyspepsia Tablets there is also a packet of small

brown tablets with the letter stamped on them. These little tablets are to be used in connection with the large ones in case of constipation or irregularity of the Bowels. Acting on the Liver and Bowels in a gentle, yet positive manner, they are of invaluable assistance to the larger tablets in all cases where Dyspepsia is accompanied by Biliousness, Nervousness, Headache, &c.

Together, these two tablets are the very best treatment for Dyspepsia, Indigestion, Heartburn, Sour Stomach, Fermentation, Flatulence, Bloating, Poor Appetite, Biliousness, Nervousness, Headache, and all troubles and diseases of the Stomach, Liver and Bowels, with the exception only of Cancer. Dodd's Dyspepsia Tablets have gone hand in hand with Dodd's Kidney Pills the world over as one of the great twin remedies, which together conquer all the common diseases of man.

Beanholme Lane, Hornsea,

Near Hull, Yorkshire,

July 29th, 1901

Gentlemen,—For a number of years I have been a sufferer from a severe attack of Indigestion and Dyspepsia, and at times the pain was unbearable, whether I ate anything or not. I was always in pain and if I ventured to eat anything solid, I was like a dead man for hours after. I also had fits of nervousness, and felt at times as if my nerves were going to give way, or Nervous Debility lay hold of me. I tried everything that was advertised or recommended for Indigestion, but nothing gave me relief or did me any good, until I received a book, which gave the symptoms and cause of my complaint; also the means of cure by using Dodd's Dyspepsia Tablets. I there and then sent for a box, and have since had others from our local chemist, and the good Dodd's Dyspepsia Tablets have done me has been wonderful, for when I least expected to be cured, I have found a cure in the Tablets, for I am glad to say that I am now free from those fearful pains. I can faithfully say that Dodd's Dyspepsia Tablets have made me a new man, and I recommend them to all suffering as I have done.

Yours truly, (Signed) JAMES SMITH.

MAKE SURE!

WHEN Dodd's Kidney Pills were discovered and first put on the market, there was no other Kidney Pill offered. But just as soon as Dodd's Kidney Pills began to cure hitherto incurable cases of Kidney Disease, and to attract the attention of the world by their miraculous work, imitators sprang up everywhere. These attempts at imitation only attest the worth of the original Kidney Pill—**DODD'S**. When Dodd's Kidney Pills were put on the market the public were offered for the first time a kidney medicine in pill form. **DODD'S** is the original Kidney Pill. It is the only Kidney Pill. All others are imitations.

The proprietors of Dodd's Kidney Pills and Dodd's Dyspepsia Tablets have done everything they can to protect the public from being imposed upon. The design of the boxes in which the genuine Dodd's Remedies are sold is protected by law, as is the name **D-O-D-D'-S**. A perfect picture of each box is on the back cover of this Almanac. The genuine Dodd's Kidney Pills and Dodd's Dyspepsia Tablets are never sold except in these boxes. Be sure of the name—**D-O-D-D'-S**.

DODD'S KIDNEY PILLS cure. They relieve almost instantly, of course, but they do more. **THEY CURE**. Tens of thousands of grateful people in all parts of the world have testified and will testify to their complete recovery through Dodd's Kidney Pills from the most severe and long standing cases of

Kidney disease,	Bright's disease,	Rheumatism,
Pain in the back,	Highly coloured urine,	Bleeding of the kidneys,
Pain in the loins,	Brick dust sediment in urine,	Irritation of the bladder,
Worn-out kidneys,	Diabetes,	Inflammation of the bladder,
Urinary troubles,	Puffiness under the eyes,	Catarrh of the bladder,
Painful urination,	Bloating of the limbs,	Ulcerated bladder,
Scanty urine,	Offensive urine.	Pain in the urethra,
Bloody urine,	Impure blood,	Uric acid in the blood,
Retention of urine,	Boils, blotches, pimples,	Loss of flesh,
Dribbling,	Muddy or sallow complexion,	Gout,
Too frequent urination,	Effects of alcohol,	Nervous debility,
Thick, sluggish urine,	Gravel,	Sleeplessness,
Involuntary or unconscious	Stone in the bladder,	Heart failure,
urination, especially by	Dropsy,	Palpitation,
children, at night,	Lumbago,	Diseases of women,

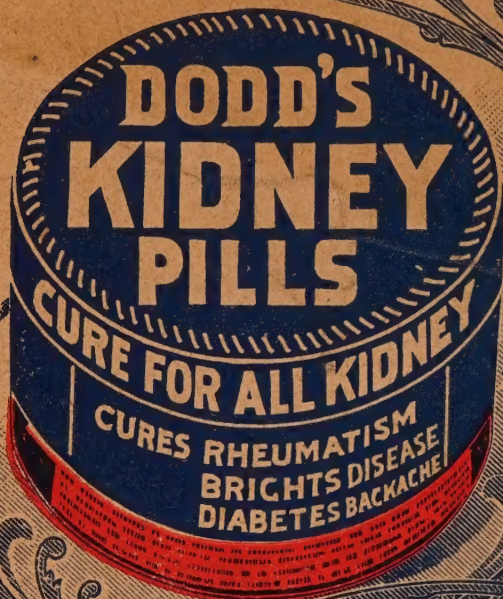

As a tonic for a run-down system Dodd's Kidney Pills cannot be excelled.

TEST.—Fill a bottle or glass with the first urine passed in the morning. Let it stand till the following day. If it then appears cloudy, stringy, ropy, or a sediment is formed, you may be sure your Kidneys are impaired.

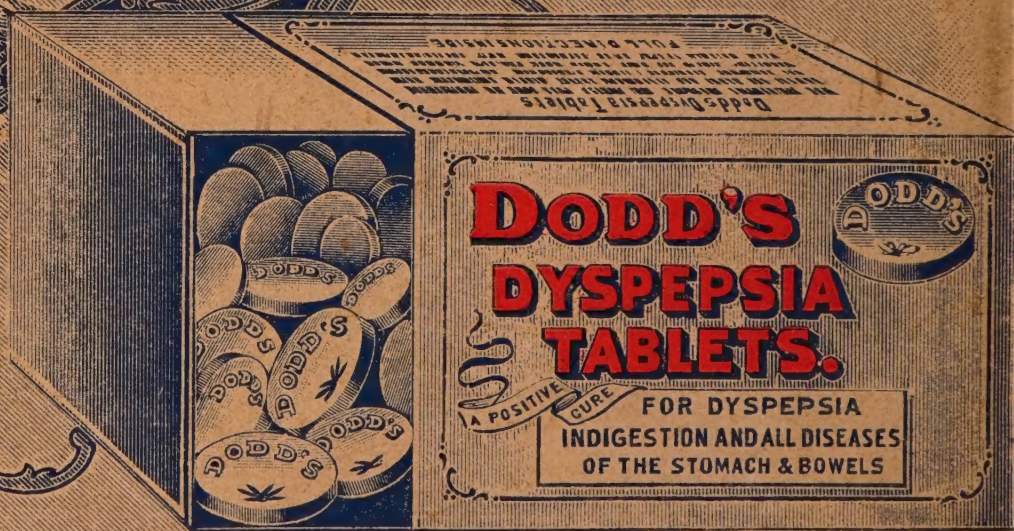

Dodd's Kidney Pills are not a "cure-all" in any other sense than that implied by their name. They cure the Kidneys. Every ailment named above is a direct result of diseased Kidneys. Dodd's Kidney Pills cure and restore the Kidneys and all these disorders disappear. Cure the Kidneys and you remove the **CAUSE** of disease. That's just what Dodd's Kidney Pills claim to do, and they do it.

Dodd's Kidney Pills and Dodd's Dyspepsia Tablets are 2/9 per box, six boxes for 13/9. Sold by all regular dealers, or post free on receipt of price.
